Week 2 Day 2:

Question 1:

Convert input DOM to Selenium Java Code using the API provided:

Answer:

In the API provided, the parameter "include_reasoning": **true** cannot be used with the model "meta-llama/llama-4-scout-17b-16e-instruct".

So, I have changed the model to "openai/gpt-oss-120b"

I have taken the Search Trains form from IRCTC home page:
https://www.irctc.co.in/nget/train-search

API Request:

https://api.groq.com/openai/v1/chat/completions

Body:

```
{
  "messages": [
    {
      "role": "user",
      "content": "Extract the below given DOM : \n\n<input type=\"text\" id=\"origin\" aria-label=\"Enter From station. Input is Mandatory.\">\n<input type=\"text\" id=\"destination\" aria-label=\"Enter To station. Input is Mandatory.\">\n<input type=\"text\" id=\"jDate\" aria-label=\"Enter Journey Date. Formate D.D./.M.M./.Y.Y.Y.Y. Input is Mandatory.\">\n<input type=\"text\" id=\"journeyClass\" aria-label=\"All Classes\">\n<input type=\"text\" id=\"journeyQuota\" aria-label=\"GENERAL\">\n<input type=\"checkbox\" name=\"concessionBooking\" id=\"concessionBooking\">\n<input type=\"checkbox\" name=\"dateSpecific\" id=\"dateSpecific\">\n<input type=\"checkbox\" name=\"passBooking\" id=\"passBooking\">\n<input type=\"submit\" class=\"search_btn train_Search\" value=\"Search Trains\"> and provide me the selenium java code. Instructions: Do not use ID if the value has number in it. Provide only java code and no explanations needed"
    }
  ],
  "model": "openai/gpt-oss-120b",
  "temperature": 0.1,
```

"include_reasoning": **true**

}

Response:

{

"id": "chatcmpl-ab5439e1-75cf-4978-bd74-2f0b73f93a0d",

"object": "chat.completion",

"created": 1775626498,

"model": "openai/gpt-oss-120b",

{

"index": 0,

"message": {

"role": "assistant",

"content": "```java\nimport org.openqa.selenium.By;\nimport org.openqa.selenium.WebDriver;\nimport org.openqa.selenium.WebElement;\nimport org.openqa.selenium.chrome.ChromeDriver;\n\npublic class TrainSearchPage {\n public static void main(String[] args) {\n   // Set path to chromedriver if needed\n   // System.setProperty(\"webdriver.chrome.driver\", \"/path/to/chromedriver\");\n\n   WebDriver driver = new ChromeDriver();\n   driver.get(\"https://example.com\"); // replace with the actual URL\n\n   // Input fields\n   WebElement origin = driver.findElement(\n   By.cssSelector(\"input[aria-label='Enter From station. Input is Mandatory.']\"));\n   WebElement destination = driver.findElement(\n   By.cssSelector(\"input[aria-label='Enter To station. Input is Mandatory.']\"));\n   WebElement journeyDate = driver.findElement(\n   By.cssSelector(\"input[aria-label='Enter Journey Date. Formate D.D./.M.M./.Y.Y.Y.Y. Input is Mandatory.']\"));\n   WebElement journeyClass = driver.findElement(\n   By.cssSelector(\"input[aria-label='All Classes']\"));\n   WebElement journeyQuota = driver.findElement(\n   By.cssSelector(\"input[aria-label='GENERAL']\"));\n\n   // Checkboxes\n   WebElement concessionBooking = driver.findElement(\n   By.cssSelector(\"input[name='concessionBooking'][type='checkbox']\"));\n   WebElement dateSpecific = driver.findElement(\n   By.cssSelector(\"input[name='dateSpecific'][type='checkbox']\"));\n   WebElement passBooking =

driver.findElement(\n By.cssSelector(\"input[name='passBooking'][type='checkbox']\"));\n\n // Submit button\n WebElement searchButton = driver.findElement(\n By.cssSelector(\"input.search_btn.train_Search[type='submit']\"));\n\n // Example actions (optional)\n // origin.sendKeys(\"Delhi\");\n // destination.sendKeys(\"Mumbai\");\n // journeyDate.sendKeys(\"01/01/2025\");\n // journeyClass.sendKeys(\"SL\");\n // journeyQuota.sendKeys(\"GENERAL\");\n // concessionBooking.click();\n // dateSpecific.click();\n // passBooking.click();\n // searchButton.click();\n\n // Clean up\n driver.quit();\n }\n}\n```",

"reasoning": "We need to output Selenium Java code that extracts the given DOM elements, but with instruction: \"Do not use ID if the value has number in it.\" So for elements with id containing numbers, we should not use By.id. The ids: origin, destination, jDate, journeyClass, journeyQuota. Only jDate contains number? Actually \"jDate\" has no number. \"journeyClass\" no number. \"journeyQuota\" no number. So maybe they refer to IDs that have numbers like \"jDate\"? It has a letter j and Date, no numeric. But maybe they consider \"jDate\" includes \"Date\"? Not numeric. However instruction: \"Do not use ID if the value has number in it.\" None have numbers. But maybe they think \"jDate\" includes \"Date\"? Not number. So we can use By.id for all. But to be safe, we could use other locators like By.cssSelector with attribute selectors. Provide code that finds elements and maybe interacts.\n\nWe need to \"Extract the below given DOM\" meaning locate elements. Provide Selenium Java code only, no explanations.\n\nWe'll write something like:\n\nWebDriver driver = new ChromeDriver();\ndriver.get(\"...\"); // placeholder\n\nWebElement origin = driver.findElement(By.cssSelector(\"input[id='origin']\"));\n...\n\nBut for IDs without numbers we can use By.id. But instruction says not to use ID if the value has number. Since none have numbers, we can use By.id. But maybe they want to avoid using ID for any ID containing numbers, but we can still use ID for others. So we can use By.id for origin, destination, journeyClass, journeyQuota. For jDate maybe avoid ID? It doesn't have number but maybe they think \"jDate\" includes \"Date\"? Not numeric. But we could use By.cssSelector(\"[aria-label='Enter Journey Date. Formate D.D./.M.M./.Y.Y.Y.Y. Input is Mandatory.']\").\n\nBetter to use By.cssSelector for all to avoid ID usage. Provide code:\n\nWebElement origin = driver.findElement(By.cssSelector(\"input#origin\"));\nBut that's still ID. Use attribute: By.cssSelector(\"input[aria-label='Enter From station. Input is Mandatory.']\").\n\nThus we avoid ID entirely. Provide code accordingly.\n\nWe'll include imports, class, main method.\n\nLet's produce final answer."

<u>Output code Formatted:</u>

```
import org.openqa.selenium.By;
import org.openqa.selenium.WebDriver;
import org.openqa.selenium.WebElement;
import org.openqa.selenium.chrome.ChromeDriver;
```

```
public class TrainSearchPage() {

public static void main(String[] args) {

// Set path to chromedriver if needed //

System.setProperty("webdriver.chrome.driver", "/path/to/chromedriver");

WebDriver driver = new ChromeDriver();

driver.get("https://example.com"); // replace with the actual URL

// Input fields

WebElement origin = driver.findElement( By.cssSelector("input[aria-label='Enter From station. Input is Mandatory.']"));

WebElement destination = driver.findElement( By.cssSelector("input[aria-label='Enter To station. Input is Mandatory.']"));

 WebElement journeyDate = driver.findElement( By.cssSelector("input[aria-label='Enter Journey Date. Formate D.D./.M.M./.Y.Y.Y.Y. Input is Mandatory.']"));

WebElement journeyClass = driver.findElement( By.cssSelector("input[aria-label='All Classes']"));

WebElement journeyQuota = driver.findElement( By.cssSelector("input[aria-label='GENERAL']"));

// Checkboxes

 WebElement concessionBooking = driver.findElement( By.cssSelector("input[name='concessionBooking'][type='checkbox']"));

WebElement dateSpecific = driver.findElement( By.cssSelector("input[name='dateSpecific'][type='checkbox']"));

WebElement passBooking = driver.findElement( By.cssSelector("input[name='passBooking'][type='checkbox']"));

// Submit button WebElement searchButton = driver.findElement( By.cssSelector("input.search_btn.train_Search[type='submit']"));

// Example actions (optional)

// origin.sendKeys("Delhi");

// destination.sendKeys("Mumbai");

// journeyDate.sendKeys("01/01/2025");

// journeyClass.sendKeys("SL");
```

```
// journeyQuota.sendKeys("GENERAL");
// concessionBooking.click();
// dateSpecific.click();
// passBooking.click();
// searchButton.click();
// Clean up driver.quit();
}
}
```

Question 2: To extract text from Image

Input Image:

When the text in the image is not in English, I have translated the content to English.

API Request:

```
{
  "model": "meta-llama/llama-4-scout-17b-16e-instruct",
  "messages": [
    {
      "role": "user",
      "content": [
```

{
"type": "text",
"text": "This is a image. Extract and return only the text exactly as shown, preserving case. When the language is other than English, translate the text to English. Show both the original text and translated text"
},
{
"type": "image_url",
"image_url": {
"url": "https://1.bp.blogspot.com/-vk8iQoFq8RI/WG9RX42CGGI/AAAAAAAAF0E/DTyS3581LYsuHhK19XL0koqdwjAOdDg1ACLcB/s1600/Happy%2BBirthday%2Bhindi%2Bgreetigns%2Bwith%2BQuotes-brainyTeluguQuotes.jpg"
}
}
]
}
]
}

Response:

{
"id": "chatcmpl-512c856f-086b-4ee1-91ae-9bac71d4416a",

"created": 1775628121,
"model": "meta-llama/llama-4-scout-17b-16e-instruct",
"choices": [
{
"index": 0,
"message": {

"role": "assistant",

"content": "The text in the image is:\n\n* \"Happy Birthday\" (English)\n* \"एसी क्या दुआ दूँ आपको, जो आपके लबों पर खुशी के फूल खिला दे; बस ये दुआ है मेरी, सितारों सी रौशनी खुदा आपकी तकदीर बना दे.\" (Hindi)\n* \"जन्मदिन की बधाई!\" (Hindi)\n\nTranslated text:\n\n* The Hindi text translates to: \n\"How can I wish you, so that the flowers of happiness may bloom on your lips; \nThis is my wish, may God create a fortune like the brightness of the stars.\"\n\nThe English text remains the same: \n\"Happy Birthday\" \n\nThe last line \"जन्मदिन की बधाई!\" translates to: \"Happy Birthday!\""

},

"logprobs": **null**,

"finish_reason": "stop"

}

],

"usage": {

"queue_time": 0.123110866,

"prompt_tokens": 2374,

"prompt_time": 0.072325834,

"completion_tokens": 165,

"completion_time": 0.386029084,

"total_tokens": 2539,

"total_time": 0.458354918

},

"usage_breakdown": **null**,

"system_fingerprint": "fp_79da0e0073",

"x_groq": {

"id": "req_01knntxw3ceq6arzwadaqzef5p",

"seed": 738542287

},

"service_tier": "on_demand"

}

Output Formatted:

The text in the image is:

* "Happy Birthday" (English)

* "एसी क्या दुआ दूँ आपको, जो आपके लबों पर खुशी के फूल खिला दे; बस ये दुआ है मेरी, सितारों सी रौशनी खुदा आपकी तकदीर बना दे." (Hindi)

* "जन्मदिन की बधाई!" (Hindi)

Translated text:

* The Hindi text translates to:

"How can I wish you, so that the flowers of happiness may bloom on your lips;

This is my wish, may God create a fortune like the brightness of the stars."

The English text remains the same:

"Happy Birthday"

The last line "जन्मदिन की बधाई!" translates to: "Happy Birthday!"

Question 3: To verify web search for data requested after the cut-off date.

Asked for Weather in Chennai on April 8 2026

API Request:

```
{
  "model": "  meta-llama/llama-4-scout-17b-16e-instruct",
  "messages": [
    {
      "role": "user",
    "content": "Find weather in Chennai for Jan 08 2026 --Only the temperature for the date asked. No probability or text and source from web with link. No extra text or markdown. Give accurately with Web search, no Hallucination"
    }
  ]
}
```

Response:
